

BURLINGTON STEEL COMPANY, LIMITED

ANNUAL REPORT OF THE BOARD OF DIRECTORS

TO THE SHAREHOLDERS:

IN presenting herewith a statement of the affairs and financial position of the Company for the fiscal year ended December 31, 1940, your Directors have pleasure in advising that, in spite of largely increased taxes, the net earnings show a satisfactory improvement over those of the previous year.

An increase of approximately 40% in sales more than compensated for the increase in taxes and for several unfavorable conditions which obtained, such as higher cost of raw materials and American exchange and war tax paid on various raw materials and supplies not obtainable in Canada.

In addition to this non-controllable increase in operating costs, there has been a decrease in the general selling price of our steel products since July, 1938 of nearly 6%.

After provision of \$95,000 for Dominion Excess Profits Tax and Dominion and Provincial Income Taxes (as compared with \$31,628 in 1939), net profits amounted to \$130,713.72, equal to 93 cents per share, as against 79 cents per share earned in 1939.

Dividends totalling \$84,000, at the regular rate of 60 cents per share, were paid from the year's earnings. Net current assets were increased by \$62,007.35, and now amount to \$934,551.66.

Your plant and equipment have been maintained at a high point of efficiency. Inventories have been carried into the new year on a very conservative basis.

The large demand for steel products experienced in 1940 has continued during January and February of the current year, and an increasingly important portion of our output is being diverted to war uses. With the Defence program rapidly expanding, it would appear that your plant will be fully employed for some time to come.

The Directors of your Company wish to express appreciation to the staff for their loyal services during the past year.

Respectfully submitted on behalf of the Directors.

H. J. STAMBAUGH,
President.

Hamilton, February 10, 1941.
